FEATURED BUSINESS — LIBERTY QUICK STOP AND MX MOTEL

Business owner Jesse Anderson was still energized from attending the recent Governor’s Conference on Tourism when I visited early last spring. As a representative for Chester and Liberty County on the Central Montana Tourism board, Anderson stated that “tourism certainly wasn’t my field of study or even an interest, but it’s my passion now. I’m a native of Liberty County; it’s my community and I just love it here.”

In 2012, Anderson (with family assistance) purchased and expanded what has become known as the Liberty Quick Stop and MX Motel along US Highway 2 in Chester. The Quick Stop offers great snack options year around including a fresh deli and Wilcoxon’s famous Montana ice cream products. “We’re a convenient stop with good access for travelers visiting the region and Glacier National Park.” Anderson went on to say, “I’m particularly proud of the regional tourism efforts and Chester is proud to boast that Spuds Café was #1 in 2019 on the Montana Pie Trail. We enjoy a busy travel season starting in May that extends thru hunting season in November”. “We’re also a favorite stop for locals and that is most important” he added.

Liberty Quick Stop and MX Motel has five employees (plus Anderson). Both businesses can be found online at www.mxmotel.com or you can also find them on Facebook.

CEO MESSAGE

On March 24, Triangle Telephone Cooperative, now known as Triangle Communications, turned 67 years old. Over that time Triangle has grown and evolved to provide members in 16 counties covering over 23,000 square miles with a landline or internet. We have advanced to now offer fiber optic level of service to over 75% of our members.

As you may know, Triangle Telephone Cooperative was formed by people

who wanted to have access to telephone services in areas where the bell companies were not willing to serve. I give a lot of credit to those early innovators who worked together and took on not only the technical but, financial risk of providing phone service for themselves and their neighbors.

As a cooperative, annually you elect a Board of Directors. Triangle's Board strives to make sure that we deliver great service at the best cost possible, and in the past, sometimes even below cost.

It is quite a time commitment for those who are elected to serve on the Board. Board members must attend continuing education seminars to keep up to date on the telecommunications industry and the ever-changing industry regulations. This does not include the monthly board meetings. I would like to thank our Triangle Board members for their time and dedication to you, our members.

The Board looks at the financial condition of the cooperative first before they determine if it is feasible to retire (pay out) a portion of the capital credits. This past July the board offered the current year (2018) capital credits at a discount, the offering was very well received by many of our members. This past December the board also approved returning 50% of the 1992 capital credits allocated to the members who had service with Triangle in 1992. Checks were issued to members totaling over \$646,000 for the 1992 retirement. The board continues to look at capital credits and how they will be dealt with in the future.

I hope this message gives yet another insight into the cooperative and how it works.

Congratulations

WHO'S WHO AT YOUR COOPERATIVE

Featuring Angela Duncan

Angela Duncan is one of the newest employees to join the Triangle Communications family. She joined Triangle about nine months ago as a Customer Experience Representative in our newly opened Big Timber office.

Her main job responsibilities include interacting with current and future members, processing orders for speed increases, new service, etc. and providing information about Triangle's products and services.

When asked what she likes best about her job, Angela replied, "I love talking to different people every day and helping them find the best solution for their needs."

Angela was a great fit for this new position in Big Timber with all the customer service experience she possesses from her previous jobs. Right out of high school she spent 10 years working for a cellular service reseller and then was a Customer Advocate and Team Lead for an online print company based in Livingston, MT.

When asked what she likes to do in her spare time, Angela replied, "I love Montana summers and being outside floating the river, hiking, camping and four-wheeling with my family especially my 12 year old daughter." Like many of us, she is not a fan of winter so when it gets cold outside she can be found at home curled up with a good book. Angela mentioned she is starting to get into sports and loves watching her daughter play basketball and volleyball.

Angela says her signature dish is Thai Chicken Tacos. I hope she is willing to share the recipe! Her favorite place to vacation is the Oregon Coast. Angela says she has vacationed there many times and will be traveling there in August to attend her little sister's wedding!

We are happy to have you on board Angela and thank you for answering my questions!

To call a Captioned Telephone user, dial:

Montana Relay:

Montana Relay is a public service that guarantees all citizens access to prompt, professional and accurate communication through a telephone. Consumers of these specialized services, specifically individuals who are deaf, deaf-blind, hard of hearing or have difficulty speaking, can communicate on the telephone via TTY, Voice Carry Over (VCO), Hearing Carry Over (HCO), Speech-to-Speech (STS), Spanish and Captioned Telephone. The helps ensure the ability to connect with family, friends or businesses with ease.

How Montana Relay works:

Dial 711 or the toll-free number listed below to connect with Montana Relay. A qualified Communication Assistant (CA) will ask for the area code and the number of the person you wish to call and will begin relaying the conversation. Generally, the CA will voice the typed message from the text telephone (TTY) user to the person on the other end. The CA then relays the spoken words by typing them back to the TTY user.

Specialized Services:

Montana Relay offers specialized services for individuals who have difficulty speaking, including Spanish-speaking residents. Specially trained CAs are on hand to assist in these types of calls by dialing the associated number provided on this page. Since Montana Relay offers a variety of services please refer to the website listed or call Montana Relay Customer Care for more detailed instruction on how a particular call is processed.

Captioned Telephone:

Captioned Telephone is ideal for any individual that has a loss of hearing but are still able to speak for themselves. A captioned telephone works like any other telephone with one essential difference: it allows users to listen to their phone conversations while reading word-for-word captions of what's said to them.

Access to Services:

Both 711 and the 800 numbers are toll free calls and provide access to the same relay services. If you are experiencing trouble dialing 711 when trying to reach Montana Relay, please call Montana Relay Customer Care.

All TRS and English Captioned Telephone services are available 24 hours a day, seven days a week. Spanish Captioned Telephone is available daily from 6:00 a.m. to 10:00 p.m. MST. Consumers may place relay calls to English-speaking and Spanish-speaking people within Montana, across the United States and even internationally. Each conversation is handled with strict confidentiality.

Special points of interest:

Equipment Distribution Program

If you want to learn about the Montana Telecommunications Access Program, please call 800-833-8503. You may also visit <http://dphhs.mt.gov/detd/mtap/mtapequipment>.

Emergency Calls

Please note that 711 can only be used to reach Montana Relay. In an EMERGENCY you should continue to use 911. For emergencies, call 911 or your local emergency service TTY number directly. The Americans with Disabilities Act (ADA) requires that all 911 centers have a TTY and are prepared to handle emergency calls placed in this manner. Montana Relay will make every effort to assist you in an emergency. However, it is important to understand that relay centers are **not** 911 centers and do not assume responsibility for emergency calls.

Swap & Shop is a classified advertising section of the Triangle Communications and Hill County Electric websites and newsletters. It is maintained as a service to customers and communities wanting to buy, sell and announce non-commercial items. To have an ad included, simply enter all the pertinent information on the online form. An administrator will review the information within two business days and if approved, the ad will then appear. It will stay online for 60 days unless you notify us to remove or change it. It will also appear in any of the newsletters printed during that 60 day window. Triangle reserves the right to abbreviate ads and if the section is full, we will display ads on a first come, first-served basis. If you're unable to enter your ad online you may mail or e-mail it to us using the contact info inside the front cover of this magazine. Happy swapping and shopping!
